WORTH ADVERTISING FOR.

There are 5,499 Negroes employed here in Washington by the Government alone, and these 5,499 Negroes draw salaries aggregating \$3,044,404. These more than three millions of dollars are spent right here in Washington, but scattered among the hundreds of tradesmen Is this amount of money worth bidding for? It certainly is, and not even the largest stores in this city would refuse to get the big end of it did they but realize how much money the Negroes are reasly spending.

Now The Bee is the only Negro publication in this city. It stands without a rival or competitor, andvovers the field like a blanket. If a few of the merchants in this city will patronize the advertising columns of The Bee, presenting the attractive bargains they may have, these Negroes - these 5,499 Negroes who draw annually from the Government over three millions of collars - will assume that by pat ronizing a publication edited and operated by one of their race that such firms desire and deserve their patronage. And such firms will receive the bulk of these over thre milions of dollars received and spent by the Negroes of Washington.

What clothing stores, what furniture stores, what dry goods stores and what other lines of business will now make an effort to divert to themselves these over three millions tf dollars spent by Washington Negroes by advertising in The Bee?

Place your advertising in The Bee and watch these 5,499 apprecia-

tive Negroes spend their over three millions of dollars with you. Now is the time to advertise in The Bee, the newspaper that goes into every Negro home in Washington. Remember, merchants of Washington, it's what advertising pays you, not what it costs.
